

# AI Entrepreneur Coach report for ZAHRA MOGHADDASI

## Working style summary

You combine strong technical experience with a careful and structured way of working. You enjoy learning and trying new ideas, and this helps you find creative solutions. You can work with clients and speak in public, while your moderate stress sensitivity means clear plans and small steps can help you stay steady. Your eight years in data engineering and teaching also help you explain complex topics clearly.

## Personality quiz (TIPI) answers

| I see myself as...               | Trait             | Your rating (1-7) |
|----------------------------------|-------------------|-------------------|
| Extraverted, enthusiastic        | Extraversion      | 3                 |
| Critical, quarrelsome            | Agreeableness     | 5                 |
| Dependable, self-disciplined     | Conscientiousness | 5                 |
| Anxious, easily upset            | Neuroticism       | 3                 |
| Open to new experiences, complex | Openness          | 7                 |
| Reserved, quiet                  | Extraversion      | 4                 |
| Sympathetic, warm                | Agreeableness     | 1                 |
| Disorganized, careless           | Conscientiousness | 5                 |
| Calm, emotionally stable         | Neuroticism       | 3                 |
| Conventional, uncreative         | Openness          | 6                 |

## Ranked business ideas

| Idea                                | Fit % | Budget (EUR) | Time (h/wk) |
|-------------------------------------|-------|--------------|-------------|
| Indie Game Development Service      | 86.3% | 500-2000     | 15-30       |
| Freelance Data Analytics Service    | 86.2% | 500-1500     | 10-20       |
| Sustainable Energy Consultancy      | 86.2% | 500-2500     | 10-20       |
| Environmental Data Analysis Service | 85.6% | 500-1500     | 10-20       |
| Freelance IT Solutions Consultant   | 85.4% | 500-1500     | 10-20       |

## 90 day roadmap: Freelance Data Analytics Service

Offer data analysis and visualization services to small businesses, utilizing programming languages and tools to turn raw data into actionable insights. Help clients understand their data through tailored reports and visual presentations.

Budget: EUR 500-1500 | Time: 10-20 hours/week

### Days 1-30

Move quickly from planning to a clear analytics offer, strong proof of your work, and active client outreach.

| Action                                                                                                                                                                                                                   | Hours | Cost (EUR) |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|------------|
| Choose two target client groups, such as small online shops and local professional services, and interview 8 owners through LinkedIn and local business groups about their reporting problems.                           | 14.0  | 0          |
| Create three portfolio examples using public or synthetic data: a sales dashboard in Looker Studio or Tableau, a customer analysis in Python, and a data-cleaning case study using SQL.                                  | 30.0  | 0          |
| Build a one-page service website with your offer, examples, process, prices, and contact form using Carrd or WordPress; buy a simple .com or local domain.                                                               | 10.0  | 55         |
| Create profiles on LinkedIn and Upwork, and prepare three short service packages covering dashboard creation, data cleaning, and monthly reporting.                                                                      | 8.0   | 0          |
| Send 15 early messages to potential clients through LinkedIn, Upwork, local chambers of commerce, and relevant Facebook business groups, using your portfolio examples and asking about their current reporting process. | 8.0   | 0          |
| Phase total                                                                                                                                                                                                              | 70.0  | 55         |

## Days 31-60

Test the offer with real prospects, complete one small pilot, and set up a simple process for paid work.

| Action                                                                                                                                                                                          | Hours | Cost (EUR) |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|------------|
| Send 30 tailored messages to potential clients through LinkedIn, Upwork, local chambers of commerce, and relevant Facebook business groups, offering a short review of their current reporting. | 15.0  | 0          |
| Attend two local business meetups or coworking events and give a short, practical talk on using simple dashboards to track sales or customer activity.                                          | 12.0  | 60         |
| Run one pilot project for a small business, such as cleaning a spreadsheet and building a five-metric dashboard in Looker Studio, with a written scope and delivery date.                       | 25.0  | 0          |
| Set up a basic client process with a proposal template, data-access checklist, GDPR-safe file sharing, invoice template, and payment account using Google Drive and a local invoicing service.  | 8.0   | 80         |
| Phase total                                                                                                                                                                                     | 60.0  | 140        |

## Days 61-90

Use the pilot results to secure repeat work while keeping the final month focused and manageable.

| Action                                                                                                                                                          | Hours | Cost (EUR) |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|------------|
| Deliver one paid analytics project through Upwork or a direct referral, using Python, SQL, Tableau, Looker Studio, or Metabase according to the client's needs. | 20.0  | 0          |

| Action                                                                                                                                                               | Hours | Cost (EUR) |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|------------|
| Ask pilot clients for a LinkedIn recommendation and permission to publish an anonymised case study showing the problem, work completed, and measurable result.       | 4.0   | 0          |
| Create a monthly reporting package with a fixed scope, dashboard refresh schedule, short review call, and clear price; publish it on your website and LinkedIn.      | 6.0   | 0          |
| Use LinkedIn Sales Navigator for one month and contact 25 carefully selected business owners, accountants, and digital agencies that may refer analytics work.       | 8.0   | 85         |
| Review income, lead sources, delivery time, and client feedback; keep the best-performing offer and plan the next 12 weeks around a target of two recurring clients. | 4.0   | 0          |
| Phase total                                                                                                                                                          | 42.0  | 85         |
