90 day roadmap: Freelance Data Analytics Service

Offer data analysis and visualization services to small businesses, utilizing programming languages and tools to turn raw data into actionable insights. Help clients understand their data through tailored reports and visual presentations.

Budget: EUR 500-1500 | Time: 10-20 hours/week

Days 1-30

Get your offer clear, put together a few examples of your work, and start chatting with small-business owners who may need help with their data.

Action	Hours	Cost (EUR)
Pick two simple services for small businesses, such as sales dashboard creation and monthly performance reporting. For each one, write down the data you need, the delivery time, and the result the client will receive.	8.0	0
Create two sample projects using public datasets from Kaggle or data.europa.eu. Include a cleaned dataset, a dashboard in Looker Studio or Power BI, and a short, easy-to-read report.	22.0	0
Build a one-page service website with your offer, sample dashboards, background, contact form, and a clear starting price using Carrd or WordPress.	10.0	70
Create or update your profiles on LinkedIn and Upwork. Add your sample work and write three focused service descriptions for data cleaning, dashboards, and business reports.	8.0	0
Contact 20 relevant people through LinkedIn, local business groups, and small-business communities. Ask about their reporting problems first instead of jumping straight into a sales pitch.	10.0	0
Phase total	58.0	70

Days 31-60

Talk with real prospects, win a small pilot project, and make your way of delivering the work easier and more repeatable.

Action	Hours	Cost (EUR)
Run five short discovery calls with prospects from LinkedIn, Upwork, local coworking groups, or local business meetups. Note their common data problems and the reports they actually want.	10.0	50
Prepare a fixed-price pilot package with a short data review, one dashboard, and a two-page insight report. Also make a simple proposal and service agreement template.	8.0	0
Complete one discounted or free pilot for a suitable small business. Use Google Sheets, Looker Studio, Power BI, or another tool that fits the client's data.	24.0	0
Ask the pilot client for written feedback and permission to show anonymised screenshots. Add the result to your website, LinkedIn profile, and Upwork profile.	6.0	0
Attend one local business meetup or data community event, then send 15 follow-up messages to people who may need regular reports.	8.0	30
Phase total	56.0	80

Days 61-90

Turn the pilot into paid work, package the service so you can repeat it, and keep a small list of possible future clients moving.

Action	Hours	Cost (EUR)
Offer the pilot client a paid monthly reporting package. Then send proposals to three more prospects with similar needs.	10.0	0
Create reusable templates for data intake, data quality checks, dashboard layout, insight reports, invoices, and client handover notes.	16.0	0
Publish two practical LinkedIn posts showing how small businesses can improve their reporting. Share them in suitable LinkedIn, Reddit, Slack, or Discord data communities without showing private client data.	8.0	0
Test one small paid promotion or sponsored LinkedIn post aimed at local small-business owners. Keep the campaign limited and include a clear way for people to contact you.	5.0	100
Review your leads, calls, costs, and revenue from the first 60 days. Choose the client type that responded best and set a 90-day sales target with a weekly outreach schedule.	6.0	0
Phase total	45.0	100
