Freelance Database Management Service	88.1%	500-1500	10-20

90 day roadmap: Freelance Data Analytics Service

Offer data analysis and visualization services to small businesses, utilizing programming languages and tools to turn raw data into actionable insights. Help clients understand their data through tailored reports and visual presentations.

Budget: EUR 500-1500 | Time: 10-20 hours/week

Days 1-30

Define a focused data analytics offer and create proof that small businesses can trust your work.

Action	Hours	Cost (EUR)
Choose one starting customer group, such as small online retailers or local professional services firms, and write three clear services: data cleaning, dashboard creation, and monthly reporting. Review similar offers on Upwork and Fiverr to set a simple starting price.	8.0	0
Create two sample analytics projects using public datasets from Kaggle or data.europa.eu. Build one dashboard in Looker Studio or Microsoft Power BI and write a short report showing the business question, method, findings, and recommended actions.	16.0	50
Set up a simple service page using Carrd or WordPress. Add your background in data engineering and data warehousing, the two sample projects, your services, prices, and a contact form.	8.0	30
Prepare a list of 30 possible contacts through LinkedIn, local business groups, and nearby coworking communities. Write a short introduction message that offers a free 20-minute review of their current reporting process.	8.0	40
Phase total	40.0	120

Days 31-60

Test your offer with real prospects, complete small pilot projects, and improve your service from their feedback.

Action	Hours	Cost (EUR)
Contact at least 30 prospects through LinkedIn and relevant local business groups. Send five tailored messages each week and track replies, needs, and follow-up dates in Google Sheets.	10.0	20
Offer two small pilot projects to suitable businesses, such as cleaning a spreadsheet and producing a basic sales or operations dashboard. Use anonymised data when needed, agree on a clear result, and ask each client for written feedback.	16.0	60
Hold six short discovery calls using Google Meet. Ask about their data sources, reporting problems, decision-making needs, and current tools. Turn the answers into a one-page proposal template with scope, delivery date, price, and client responsibilities.	8.0	0
Share one practical data tip each week on LinkedIn and in relevant communities such as r/dataanalysis or local startup Slack and Discord groups. Attend one local meetup or coworking event to explain your service and collect at least five new contacts.	6.0	100
Phase total	40.0	180

Days 61-90

Turn the tested service into a repeatable paid offer and build a steady flow of qualified leads.

Action	Hours	Cost (EUR)
Deliver one or two paid analytics projects, using a fixed process: data access check, data cleaning, analysis, dashboard or report, client review, and final handover. Limit the work to projects that can fit within your 10-hour weekly schedule.	20.0	100
Create two short case studies from completed pilot or paid work, removing private client details. Publish them on your service page and LinkedIn with the original problem, the work completed, and the business result or decision it supported.	8.0	0
Send 20 follow-up messages to earlier contacts and ask satisfied clients for one referral each. Apply to five well-matched projects on Upwork and respond only to jobs that fit your chosen services and available hours.	8.0	50
Create reusable templates for a data access checklist, client questionnaire, project proposal, report, and final handover. Review your prices and set a monthly reporting package that you can deliver with limited custom work.	4.0	50
Phase total	40.0	200

Fit percentages, budget/time ranges, and matched skills/traits above are computed, not AI generated. The written summary, rationales, and roadmap text were generated with gpt-5.6-luna.
