Zahra Moghaddasi

Data Engineer
Berlin Metropolitan Area

Summary

A PhD Senior Data Warehouse Developer with a passion for solving business challenges using data Teaching. I am excited to apply my experience and knowledge of data modeling to solve real world problems. I have more than seven years of experience in the field of data engineering and data warehousing where I worked on several projects. My goal is to deliver optimal solutions to real-world problems and ensure they meet their requirements and business objectives
